# We are a Smart Site!

We use Smart Technology to check cards carrying the CSCS logo

How We Check Your Card

SmartCards and Virtual Cards

1) Have your card or phone ready to gain access to our site.

2) We will use a device to check your card – this could be a phone, a site access machine or a computer.

3) If there are no issues, you will be allowed on to our site.

4) If the check raises a problem, we will discuss the next steps with you.

Smart Technology is the quickest and most secure way to check your card

Cards Without Smart Technology

Other cards will need to be checked:

1) Against an online register.

2) By calling the card scheme which issued the card.

This may take some time

Please be patient whilst we check your card

These card checking procedures will identify cards which are fake, cancelled or expired. If your card is found to be fake, cancelled or expired, then site management will take further action.

To find out more about checking cards using Smart Technology go to www.cscs.uk.com/partnercards.
