

Pre-qualification costs the construction industry up to

£1 billion
a year

Build UK is rolling out the [Common Assessment Standard](#) to improve efficiency and reduce cost in the construction pre-qualification (PQ) process.

A growing number of organisations are now using the industry-recognised standard which is not only minimising duplication across the industry but raising the bar in assessing the competence of the supply chain.

Key Features

1
Certification per year from a choice of Recognised Assessment Bodies ✓

2
Levels of certification – desktop and site-based to suit a company's needs ✓

233
Questions covering 10 key areas to fully assess a company's competence ✓

29
Key questions for which data is shared between Recognised Assessment Bodies ✓

20

Contractors and Clients specifying the Common Assessment Standard for their supply chains

3

Trade Associations accepting the standard as part of their membership audit scheme

15,000

Supply Chain Companies certified to the standard
